CROP PROSPECTS.

AN INTERNATIONAL INCIDENT.
Some excitement has been manifested among the natives over the shooting of a Chinese boy by a Frenchman on the evening of the celebration of the seventh month festival. It seems that a call was made for a boat from the landing of the French consulate. It was about eleven o'clock at night, and as the call was not answered about a dozen shots were fired from a revolver. The careless handling of the weapon wounded a boy in a boat on the other side of the river. The boy was taken at once to the American Mission Hospital, and it was found that the bullet had completely perforated the right lung. The boy is now slowly recovering, but it is to be hoped that we will not have a repetition of such reckless conduct, for though our islanders are generally reasonable and friendly to foreigners, actions like the one described above are likely to excite any Chinese community a constant state of revenge when the innocent suffer with the guilty. It is reported that the parents of the boy have accepted \$100 in settlement for the injury, and it is hoped that the boy may recover and the case may cause no further excitement.

THE EXAMINATIONS.

Canton, September 6.
A considerable time before the examination for the first degree examination this year, I indicated the probability of a considerable decrease in the numbers. The truth of that remark was fully justified by the comparative small number of aspirants for the first degree. The Ku Yan or second degree examination is almost due. Besides the ordinary examination, an extra one, as a matter of grace, will be held this year, and these two examinations will bring together a much larger number of literary men than usual. The likelihood is that these examinations will be the last under the old régime. According to the Imperial Edict, the Wen Chuen, which for the last two hundred years has been the main item in the degree or civil service examinations, is for ever abolished.

NEW FRENCH SCHOOL.
A circular in Chinese has been published broadcast in the city and in the Shamone announcing the opening of a school for teaching French to Chinese on the 1st day of the 9th month (September 13). The school, which is a handsome building, is situated in the old French Yamen inside the city, near the Po-Ching St Yamen. The circular states that the breaking down of the barriers to trade and intercourse is a reason for the French language being understood, for French merchants are found in all the ports. This school is established to further this object. "Let all who can read the signs of the times repair thither without delay." The French Government will meet the expenses of the school, and so a small fee of \$1 a month will be charged for tuition. Pupils may be enrolled at the school or the French Consulate on the Shamone.

MISCELLANEOUS.
The mandarins have ordered Mr. Lu, the Chinaman who is constructing a steamer wharf at Wong Sha, to pay rent for the wharf he began work. He is willing to pay as soon as the wharf is completed, but not before, and has appealed to the Viceroy for relief from taxation in the meantime.

Permission has been granted to run a steam launch with a passenger boat between San On and San Ning. The licence will cost \$1200.

On Monday night, in Tung Hing Street, soldiers successfully raided a shop dealing in ready-made clothing. They carried off twenty suits of clothes and two hundred pairs of shoes.

Consumption.
Consumption is a disease deadly in its effects. It is widely prevalent, its germs are everywhere, and only those persons in robust health are safe, comparatively, from its attack. If you have a hacking cough, weak lungs, impaired blood, a weakened constitution, you are an easy prey to consumption, and should take steps at once to build up your health.

It is no longer necessary to punish yourself by gagging and retching, trying to force down the oil-time cod liver oil or its Emulsion. That custom belongs to the days of the tall-pipe, stage-coach and the use of sassafras for sweetening. Stearns' Wine of Cod Liver Oil contains the medicinal essence of Cod Liver Oil in a light, pleasant degree of activity and will do all that Cod Liver Oil will do, and more too. This accounts for the curative effects of Stearns' Wine of Cod Liver Oil in consumption, and all diseases where the system is weakened and emaciated. At all Chemists, and Wholesale from A. S.
